“Charlotte made me the cutest card when I had my son. I think of her often when I look at that card. My son is now 18 months old. I'm glad our paths got to cross in life.

“Charlotte, you will be missed so much. You were always a part of my family like another older sister. When I spent 6 months in the hospital as a kid, you were always there for me. I'm sure you are dancing and singing with my beloved Jimmy right now. Give him a kiss and hug for me. You are healthy and out of pain now.

Love,

“ I am glad I got to know Charlotte. Deep down she had a true loving heart and on the outside, she was brave and tough and probably one of the most interesting people I have ever had the pleasure to meet. Loved her stories and her amazing artistic talent. She was so proud of her miniatures and displayed them at Clare Castle weekly. She had a story about each one! She was a fighter during her long illness and you would see her driving her motorized chair all around Clare! She loved getting out by herself. She designed a bra for Bras for a Cause recently and was in 2nd place for awhile. I was so proud of her for doing this considering it was so hard for her to get around, but like I said she always found a way. She taught me that to be successful you have to be willing to step out of your comfort zone even when you just want to give up! So many people like that comfort zone and don't do anything with their lives. Yes I will miss you sweet Charlotte but we will meet again someday, Just wish, we could have lunch together one more time. You told me once that i was different. You saw something in me that I did not always notice in myself. I think you saw Christ in me. You take care Charlotte and God Bless you for being you!

“ Charlotte was an extraordinary woman. She was a force to be reckoned with and people either loved her or hated her. Most people loved her. I am honored to have had her in my life, I so hope wherever you are Charlotte, you are dancing. Peace my friend.
