“ *A grandmother is a go to throughout life! I am very thankful to have returned the love and care the last few years!! I will forever remember all the little trips with granny and papa almost every other weekend growing up. All the shopping trips with granny, listening to loud music, and gossiping like we were high school besties. She says, "papa never liked the music loud. Turn it up" hehehe... She shared so many important days in my life, being a bridesmaid in my wedding and being here to see our boys grow! I have and always will cherish those memories! Love you granny!*
